

## PAC 12.3 COMPACT

The Eurom PAC 12.3 is a stylish and powerful air conditioner with an output of 12,000 BTU, making it suitable for cooling larger rooms of up to 105 m<sup>3</sup>.

This air conditioner stands out for its modern, sleek and very compact design for a 12,000 BTU model. Thus, the mobile air conditioner does not get in the way and is easy to store when you do not need it during the winter.

With two adjustable speeds, you can adjust the airflow to your preference. In addition, the PAC 12.3 also functions as a dehumidifier and can remove up to 1.2 litres of moisture per hour via the air discharge hose. The air conditioner can be operated via the remote control and the control panel. It is also equipped with a convenient 24-hour timer function.

The PAC 12.3 comes with a Window Kit and an adapter so that the exhaust hose can be easily fixed in a sliding window.

The exhaust hose can also be connected to the Eurom Window Way-Out, with this accessory you can exhaust the warm air through any tiltable window! The perfect solution for your mobile air conditioner!
