INTRODUCING

STORMBOOST

THE SOLUTION TO POOR MAINS WATER PRESSURE

- ▶ 5 YEAR WARRANTY
- ▶ MAINS PRESSURE BOOSTED BY UP TO 2.5 BAR
- ▶ MAX PUMP OUTPUT FLOW RATE OF 12 LITRES/MIN
- ▶ PATENTED INTEGRAL BYPASS
- ▶ SWITCHES ON/OFF AUTOMATICALLY
- ▶ HIGH QUALITY, ROBUST BRASS PUMP BODY & IMPELLER
- ▶ ANTI-VIBRATION CONNECTION HOSES INCLUDED

OVERVIEW

STORMBOOST boosts existing mains water pressure by up to 2.5 bar and a maximum flow rate of 12 litres per minute.

The **STORMBOOST** Pump is designed to be connected directly to the incoming cold water mains and activates automatically when a tap is opened or a shower is switched on, boosting mains water pressure and flow throughout the property.

Featuring a highly reliable induction motor and a high quality brass pump head, **STORMBOOST** is supplied with two anti-vibration connection hoses and an extended **5 year warranty**.

APPLICATIONS

- ▶ Boosting mains water pressure to properties using a combi-boiler
- ▶ Ideal for properties with a single bathroom

FEATURES

Effectively boosts incoming mains water

Connects directly to the incoming mains to boost the home's water supply. Max pump output flow rate of 12 litres/min for improved water performance

Increases pressure at all connected outlets

Mains water pressure increased by up to 2.5 bar for improved pressure around the home, Max 3.2 bar @ valve closed & 0.9 bar @ 12l/min.

Easy to install

Compact in size, ideal for properties with 1 bathroom. 2 anti-vibration hoses included in the box for quiet operation. On-off indicator light to easily check the power source. Quick install guide included on the packaging

Low maintenance once installed

High sensitivity flow detection for automatic on/off operation, Patented integral bypass for improved water flow & Anti-vibration feet for quiet operation

Long-lasting high-quality parts

Robust water boosting pump with quality brass parts for enhanced reliability & a massive 5-year extended warranty!
